FARMERS.

Adam was a farmer while yet in Paridise, and after his fall, commanded to earn his bread by the sweat of his brow. Job, the honest, upright and patient, was a farmer, and his patience has passed into proverb.

Socrates was a farmer, and yet wedded

St. Luke was a farmer, and divides with Prometheus the honor of subjecting the ox for the use of man.

Cincinnatus was a farmer, and the noblest Roman of them all. Burns was a farmer, and the Muse

found him at the plough, and filled his soul with poetry. Washington was a farmer, and retired from the highest earthly station to enjoy the quiet of rural life, and present to the

world a spectacle of human greatness. To these names may be added a heat of others who sought peace and repose in the cultivation of their mother earth.

The enthusiastic Lafayette-the steadfast Pickering—the schlastic Jefferson the fiery Randolph, all found an Eldorado of consolation from life's cares and troubles, in the green and verdant lawns that surrounded their homesteads.

YOUTH.
